

Controller 7000 Single Door Kit - RS485

C402910

Product description

The Controller 7000 Single Door Kits provide a powerful and cost-effective single door security system, saving you time and effort in selecting the appropriate power options for your access control system and speeding up the installation process. The kit provides a powerful and cost-effective single door security system, for a complete single door access control solution.

- The kits use a DIN rail mounting system, which provides a flexible and modular way to install security system components.
- The system is easily expandable, supporting up to three C7000 Single Door Controllers per cabinet, along with Gallagher I/O boards and modules using our DIN rail mounting adapters. New devices can be powered conveniently using the Terminal Block.
- The kit includes a slam lock with Dirak lock compatible with the Gallagher Master Key.
- The Controller 7000 Single Door is designed with a small cabinet that includes a micro tamper switch and room for two 12v backup batteries. This compact size makes it ideal for installations where space is limited.
- The preinstalled hardware and cabinet drill hole template minimizes installation time.

Product details
